📍 84, Bharathi Street ,Balaji Nagar,Ponneri,Thiruvallur District,601204.

A motivated and detail-oriented software developer with strong time management skills and the ability to perform under pressure. Eager to take on new challenges in a dynamic organization where I can apply my technical knowledge, learn new technologies, and contribute to impactful solutions.

## Education

### Bachelor of Computer Application (2020-2023)

Loyola College, Nungambakkam

### Msc Cyber Forensics and Information Security (Pursuing)

University of Madras, Chennai

### HSLC

Velammal Matriculation School, State Board (68.1%)

### SSLC

Velammal Matriculation School, State Board (84%)

## Experience

### NGP Websmart

#### Software Deveoper (April 2025 - Till Date)

I work on full-stack development using PHP and AngularJS 1.6. My role involves developing new features that help users improve their workflows and overall productivity. One of the features I implemented was the integration of Slack to send instant notifications from the application, enhancing real-time communication. I focus on writing clean, maintainable code and ensuring smooth frontend-backend functionality.

#### Technical Support Engineer (May 2025 - April 2025)

I am responsible for swiftly resolving support tickets by analyzing reported issues, writing and executing effective queries, and implementing necessary code fixes to maintain and optimize system performance. I also collaborate with users to understand their data needs and generate custom reports based on their specific requirements, ensuring accurate and actionable insights.

#### Mavdero TechServices PVT Limited ( 16<sup>th</sup> December - 17<sup>th</sup> January)

I utilized HTML and CSS to build responsive and user-friendly web interfaces. I also worked with Figma for UI/UX design and prototyping, ensuring the creation of visually appealing and functional layouts. This internship allowed me to strengthen my front-end development skills and gain experience in translating design concepts into working web pages.

## Technical Skills

**Back End** : PHP, Adonis JS

**Front End** : HTML, CSS, JavaScript, Angular JS, Bootstrap

**Database** : MySql, PostgreSQL

**Operating System** : Linux, Windows

## Software Know to use

- Git
- Postman
- wix
- Figma
- Canva
- MS Office

## Certification

- Web Engineering - Selfmade Ninja Academy
- Application Programming Interface - Selfmade Ninja Academy
- Develop a Company Website with Wix -Coursera
- Learn the Art of Hacking Through Programming - Selfmade Ninja Academy
